Welcome to the Dale Ball Trails!

The Dale Ball Trail system includes 22.22 miles of hiking and mountain biking trails that connect to other well-known Santa Fe trails and extend across land owned by the City of Santa Fe, Santa Fe County, the National Forest Service and The Nature Conservancy.

Connecting trails include:
- Nature Conservancy 1.27 miles
- Dorothy Stewart 1.46 miles
- Atalaya Trail 5.16 miles

making the total trail network 30.60 miles, all starting within two miles of the Santa Fe Plaza.

The Dale Ball Trails were built through the generosity of an anonymous donor and the McCune Foundation, who together provided the majority of the funds. Several individuals also contributed money to the project.

The trail system is named after Dale Ball, a long-time Santa Fe resident, who conceived of this foothills trail system, secured the funding and followed through by directing the construction of the trails.

Hiking & Trail Safety Reminders

Just because the trail system is close to the city limits doesn’t mean all trails are easy or even moderate. See our sample hikes and mountain bike rides for details.

Be sure to wear comfortable shoes that are appropriate for the trail you choose. Bring rain gear, just in case. Bring plenty of water, sun screen, sunglasses, a hat, a first aid kit. A cell phone is a good idea, but signals may not be available on some parts of the trail.

If you’re visiting from a lower altitude, especially ones with higher humidity, be careful not to do too much, too fast.

Altitude sickness and dehydration can lead to serious difficulties, so rest often, drink plenty of water and enjoy the views.
