

Feedback from some of the participants attending the June 29th-July 1st three day Santa Fe Creative Journey workshop with Elissa Heyman:

"I feel so enriched by the experience. It was a joy and an affirmation to be with you and with all of the great people in our group." *J., Kentucky*

"I feel so much lighter now that I have returned home." *L., Connecticut*

"I thoroughly enjoyed the workshop! It really impacted me in a big way across many different levels. Some of the most significant things for me that were impacted by the workshop consisted of finding out more about myself and the assistance it provided in releasing things that I needed to release in order for me to continue on my spiritual journey. I also enjoyed interacting with you and everyone that attended. It was great to meet people of like mind and spirit. It was a very powerful experience! It has been a couple days later and I am still processing some of the things I learned about myself. It was a really great time!" *S, Albuquerque (the one man attending!)*

"While I had been exposed to this kind of work before, I had never experienced the close, supportive, cathartic experience I did with Elissa. Elissa provides a fun, loving environment that makes learning easy, fun, deep and oddly artistic. Thank you, Elissa!" *H, Santa Fe*

"I really think everything we did worked for me. Some things probably aren't fully digested yet-- I can feel myself still processing, figuring them out -- but I know all of it was very healthy nourishment that I was thirsty for." *A. Connecticut*
